ANNEX (A)

Appraised Projects

Arab Countries

Country	Projects Name	Purpose
Tunis	Two High institutes for Technological Studies	The Project aims at constructing and equipping a high institute for technical studies in each of Mdeneen and Golaibia City with a view to provide specialist cadre in all aspects of Technology required by the industrial, productive and services entities.
Sudan	Marwai Dam Projects	The Project aims to meet the demand on power and reduce the cost of its production through the construction of a dam and a hydropower station on the Nile River. It is worth mentioning here that the Fund has in 2002 provided a Loan of KD 31 million (equivalent to about US\$ 103 million) for financing the Project.

Central Asia & European Countries

Country	Projects Name	Purpose
China	Ningxia People's Hospital	The objective of the Project is to support social development in the Ningxia province through meeting the increasing demand for health services and also to improve the quality of specialized health services in the province.

African Countries

Country	Projects Name	Purpose
Burkina Faso	Samendeni Dam for Agricultural Development Project	The Project aims at developing the agricultural production by irrigation of 1500 ha, through the construction of a dam at the source of the upper Mouhoun River, with an ultimate goal.
Guinea	Komba – Boumehoum Road Project	A 103 Km two lanes asphalted road forming a part of a transport corridor in the Fota Jallon region in North Western Guinea, aiming at satisfying demand on local road traffic and serving regional commercial activities with the Senegal.

Country	Projects Name	Purpose
Senegal	Madina Gounas– Guinean Borders Road Project	The Project consists of a 70 Km two lanes asphalted road which shall satisfy the demand on road traffic in the South Eastern region of the Senegal, and serve regional commercial activities with Guinea.
Tanzania	Sonega-Matemanga Road Project	The Project aims to meet the increasing demand for the transport of passengers and goods between the Towns of Sonega-Matemanga a in an efficient and safe road suitable for all weather conditions, and to contribute to the economic and social development of the project area, also aims to reduce travel time and vehicle operating costs.
Malawi	Thyolo-Bangula Road Project	The project aims at the upgrading of the existing gravel road that connects “Thyolo-Bangula” to a bituminous road with a total length of about 91 Kilometers, of about 6.7 meters carriage way and asphalted shoulders of about 1.5 meters at each side, and will thus help the integration of the road network and further improve potential of social and economic development in the Project areas.
Rwanda	Rehabilitation of Gitarama – Mukamira Road Project	The Project aims to support the economic and social development of the Southern and Western Provinces of Rwanda by improving their link with the Capital Kigali and the remaining Provinces of the Country, in order to facilitate and reduce the transport cost of their agricultural, industrial and mining products and their imports from other provinces and neighbouring Countries. The Project will also facilitate access to health and educational establishments in the Region.
Lesotho	Upgrading of Likalaneng Thaba Tseka Road Project	The Project aims to enhance the economic and social development and poverty reduction by improving the efficiency of the national transport infrastructure particularly in the rural areas of the country, through upgrading the Likalaneng - Thaba Tseka Road with a total length 85 Km from the existing gravel road to a Class A bitumen road standard with a width 7.0 meter carriageway and 1.0 meter paved shoulders on both sides, and constructing two new river bridges; which will reduce vehicle operating costs and road maintenance costs and to improve the quality of road transport service level between Likalaneng and Thaba Tseka. The road project link considered a very important part of the national Trans Maloti Highway which will link the Capital city of Maser to the borders of the Republic of South Africa and then to the important commercial sea port of Durbin.
