A Supplementary Loan Agreement was signed today in Jakarta between the Republic of Indonesia and Kuwait Fund for Arab Economic Development, whereby the Fund shall make a Supplementary Loan of KD. 4,150,000 (i.e. about US$13.8 million) to contribute in covering the increased costs of financing the Pasteur - Cikaplayang - Surapati Elevated Road and Bridge Project in Bandung.

Kuwait Fund has contributed to the finance of different projects in the Republic of Indonesia since it started its activity in the Republic of Indonesia on 10/04/1977 by entering into Loan Agreement for the Electricity Distribution Project in Bandung. Kuwait Fund has contributed to the finance of different 8 projects in the Republic of Indonesia through its Loans.
Kuwait Fund contributed $40.7 million US for the financing of the Pasteur-Cikapayang-Surapati Elevated Road and Bridge Project. The aim of the project is to reduce traffic congestion by providing an alternate route for commuters in the city of Bandung. The project also includes the rehabilitation and development of the power distribution system of the Bandung network, the standardization of the distribution system, and the introduction of new connections serving 50,000 customers. The project will also include the provision of consultancy services required for the preparation of a study of the requirements.

Kuwait fund contributed $17.9 million US for the financing of Bandung Electricity Distribution Project. This project aims at raising the level of efficiency of the power distribution network in Western Java. The project area lies on the outskirts of the capital, Djakarta, and the city of Bandung. The project will include the rehabilitation and development of the power distribution network in Bandung, the standardization of the distribution system, and the introduction of new connections serving 55,000 customers. The project will also include the provision of consultancy services required for the preparation of a study of the requirements.
